

I enjoy listening to K-Love. It brings Christian music into my car and work. I don't have to worry about unclean or suggestive lyrics being heard by my teenage daughter or myself. There are very few Christian stations available to listen to and lots of others which do carry disturbing music. I would not like my choices limited to just secular stations. I find the music on K-LOVE to be relaxing and uplifting which I find essential during my stress filled work day and daily life. I urge you not to limit the access to K-LOVE and other Christian radio stations. Their encouragement is much needed in the troubling times we live in. Thank you.
